Astoria Parks and Recreation has hired planning consultant Mackenzie to work with the community to develop an updated Parks & Recreation Master Plan that will guide our facilities and programs into the future!

We will be holding several public engagement opportunities, including open houses and online surveys, to hear directly from you and inform our efforts.

Between now and April 2026, we want YOUR feedback on what we do well, what can be improved, and what amenities and services you'd like us to focus on in the next ten years.

Join us at this informative event to learn about the input we have received from the community so far - and help the Parks & Recreation Department further refine and prioritize the needs and goals of the community!
